Comments for IELTS, CELPIP, French and English Classes at CCE

I would highly recommend this school to anyone who would like to learn and become fluent in French. I am taking group and private classes and everyday my French is getting better. The staff and teachers are very helpful and encouraging. I am very satisfied with the learning environment of this school.

It's been just 2 months and I already feel I've learned so much French. I'm not shy or afraid of speaking in French language anymore. And the most important, I never get bored in classes. They're very dynamic.

I am currently enrolled in a French private program at the CCE and I chose it for two reasons. Firstly, I like the teachers, the caring environment and the class curriculum. And secondly, the location is just a minute walking from the subway station and a few stops from where I live in a centre of Toronto down-town... **Maria Private Lessons in French**

Salut tout le monde! Hello Everyone! Je m'appelle Oksana et je veux vous dire quelque chose. I always wanted to learn how to speak French and when I found out about Canada College (CCE) I have decided to give it a try and was pleasantly surprised. Small classes, highly trained teachers, accommodating schedules, friendly and welcoming staff make learning any language quite inspiring. After taking one level at CCE I felt more confident about my French speaking abilities than ever before. I have been with school for over three month now and the only thing I have experienced is improvement. Thank you to all CCE teachers and staff for their patience and encouragement.

Bonjour à tous!

Je m'appelle Najada and I have been with Canada College of Education's Intermediate French classes for 8 months and I feel like if I continue attending classes further I will be able to teach French myself, that's how much I have improved. I had a great time studying at CCE because they listen to our suggestions, they offer highly trained and native French teachers and small groups of students. The wonderful teachers, and staff, location and affordable prices are one of the reasons why I would still choose CCE for other courses in the future. Bonne chance à tous.

Bonjour! Quoi de neuf? Je m'appelle Ricki, and I have been learning French here for 7 months. I'd never been in touch with French before, believe it or not I myself was and IS surprised that I can now actually to read, to write, to listen and to SPEAK in French! Credits go to the teachers that encouraging me to "make mistakes" by speaking up in class, which I don't feel shy and to becoming this great improvement! Not to mention the staffs urging me to communicate in French, and the classmates as well. I will continue to study French here until I have become an expert.

I have joined Canada College of Education's Intermediate to Advance French class in January of 2012. I had a good knowledge of grammar, large vocabulary and excellent reading comprehension but I needed to improve my conversational skills. In a short period of time my conversational skills improved so well that one "le parisien" asked me if I am from Quebec:) The school has always listened to our suggestions and tailored class's program to the specific needs of the students. I think this language school is the best value for money that anyone can find in Toronto. **Anjlika Saturdy's**

Jila ESL Program

I chose Canada College of Education for my studies as it offered a well-structured and relevant program to enhance my level of English. The course drew my attention because of its affordability and flexibility in the schedule. This is unbelievable low cost school. You can directly apply for admission from any country without paying to an agent. The teachers are native English speaker and have vast experience in their fields. Iana Esl classes and Business English

I have joined Canada College of Education to learn French and English languages. The friendly environment and highly experienced teachers make the new language really easy. The price is reasonable and the schedule is flexible. There are group classes, private lessons and semi private during days and evenings.

My name is Kiyoko; I took an IELTS course at Canada College (CCE). The teacher encouraged me to study hard, taught me with passion and made me believe the success. As a result, my score was drastically improved. I couldn't have done [Score 8.0] without taking this course. Thank you for the staffs and the teachers made it possible to have total 8.0 bands on IELTS.

Hello everyone.
My name is Ashik. I took my IELTS exam this April. Before taking my exam I thought of doing a quick course to familiarize myself with the exam process. On their website the Canada College seemed promising so I decided to give it a go. To be absolutely honest I found the course extremely helpful. In fact only after my first class I decided to register for the exam as I believed that the best time to appear for the test was just after the end of the course. The teacher was an absolute sweetheart; she helped me out in every way imaginable. I ended up getting an 8. If you guys are thinking of taking the test I would highly recommend Canada College.
Thanks. **IELTS Classes**

Hi! I am Monica, I am an Italian girl! In the month of August, I was in Toronto and I attended the course at the Canada College of Education! I studied English in a class with other students of different nationalities and this was an opportunity not only to learn English but to compare with other cultures too. In the class I felt good because there were different activities: reading, conversation, listening, watching movies, group work. So it was fun to study English at this school! The teacher was very helpful and patient and with her I had a friendship! I am very glad to have chosen to learn English in the Canada College of Education! Monica - ESL classes

The best language school in Toronto!
Great prices and amazing tutors, who customize the course to your needs.
You never get bored learning a language with CCE!

The teacher Peggy is awesome. Very enthusiastic and methodical, she is very earnest & hardworking in helping us learn the language.

I liked the course. The building is located in a very good, and busy, place. My classmates and my teacher were great. I knew it would be a little bit more challenging, to study French in an English-speaker country, because I would have to express myself in both languages. I am Brazilian, so it wasn't so difficult for me to learn French. So, I decided to accept it, and turns out everything was great.

An interview with Dr. Raed Abu Yagoob about French Classes

An interview with Dr. Raed Abu Yagoob

Please introduce yourself.

My name is Raed and I am from Saudi Arabia. Since last four months I have been studying full time French course at Canada College of Education. As I am medical doctor, I came to Canada to pursue my education in dermatology and I realized that learning French is very suitable and useful for medical students.

How did you find Canada College of Education?

I have been recommended to come here by one of my friends who was already student there. As I got a letter of admission from Canada College of Education, I applied for study permit (student visa) from Immigration and shortly after that I granted one year study permit.

In fact French language is easy!

Why did you decide to take a French course?

Actually it's been long time that I wanted to learn French, but I couldn't find an appropriate time until now. French is one of the important international languages and it is useful to learn it. I want to complete my specialization (Dermatology) in French language therefore learning French is really essential for me.

What course level did you start?

I started from the scratch but now after about 4 months I feel that my progress is beyond what I was expecting. I have never thought I can learn French with such speed.

At CCE you will have 3 options

Is the lower course fee was a factor to attend CCE?

Certainly, the course fee was very important factor for me when deciding what school to choose for my FSL study? I guess CCE charges the least among all other schools in Toronto. Now after experiencing the whole educational process I came to realization that this school has more than just the lower price for us. I like the location of the school, the inside design of the center, the tranquility of the place, the educational aides that they provide (Computers, free WiFi and ...), the flexible schedule, knowledgeable and punctual and well trained teachers. I would like to take the opportunity to thank all teachers and admin for their help and kindness.

1- Private lessons

merci beaucoup à tous.

2- Group lessons part-time

What do you think about your teacher's quality of teaching?

I have been taught by 3 French native teachers: Mrs. Pascale, Mrs. Alice and Mrs. Gwen.

3- Group

All of them are hard working, supportive and they have very easy approaches. I may add that Pascal is skilled more in

lessons full-time

teaching pronunciation while Alice is great at breaking down things for easy understanding and finally Gwen is outstanding in to know what confuses students. She will quickly get students out of confusion by using some simple examples.

How long takes time for an absolute beginner to speak French?

This question is a bit difficult since each individual have different ability to learn a new language. For a native English speaker who's willing to put more effort at home not just depending solely on the classes, it might take around 12 to 18 months to improve his/her language skills. Here CCE provides several French levels, so you have variety of options to choose from and successful student receive a certificate of completion.

Do you have any recommendation or comments?

I have some ideas to help students for rapid progress and shorten the time.

1- keep it simple and remember when it comes to learning a language repetition is very useful. To repeat twice is better than once but the best is to keep repeating and repeating until you well memorize words or phrases. This will make it comes automatically later on which means fluency.

2- There is a section in the web site *about.com* for learning French language it is helpful, organized and takes you from the A to Z. When you get good teachers and good materials in place then you will learn the new language so rapid.

3- There is lots of phrasebooks out there. They are really good because they will give you situation oriented conversations so you can go ahead and have simple conversations in different topics. During the French classes the teacher quietly engage you to the series of discussions like: Travel, Hotels, Restaurants, Clinics and the like.

Bonne chance tous le
